ABOUT ME

As a third-year undergraduate student, I have developed strong skills in programming, design, software development, and specific web application deployment. I have gained significant experience working on various computer platforms and collaborating in teams. My enthusiasm for computer science is unwavering, and I am ready to persevere and work hard to succeed in this constantly evolving field.

LANGUAGES

- Arabic
- English
- French
- German

EDUCATION

- 2019 - 2020: High School Diploma in Physical and Chemical Sciences at Lycée Prince Moulay El Hassan, Fes.
- 2020 - 2021: Completed a 300-hour training program at FreeCodeCamp (Computing with Python).
- 2021 - Present: Studying at Sidi Mohamed Ben Abdellah University, Fes, in the third year of the Mathematics and Computer Science program.
- 2023/06-Now: study in Alx online course (Software Engineering Program)

SKILLS

- Programming Languages: JavaScript, Python, Java, C, C++, etc.
- Front-end Frameworks: React, Laravel, Symfony, jQuery, etc.
- HTML5, CSS3, Sass/Less for creating attractive layouts and styles.
- Back-end Frameworks: Node.js, Flask, PHP, Express.js, etc.
